## Agnitio Advisors Develops Standardized Policies, Processes and Procedures

Agnitio Advisors develops Policies, Processes and Procedures for clients that are based on ISO 19770 standards. Documentation is created based on standardized workflows and documentation templates that can be customized to meet customer requirements. Pre-defined roles can be used as-is, or customized to suit your organization's nomenclature.

Agnitio Advisors develops Policies, Processes and Procedures for clients that are based on ISO 19770 standards. Documentation is created based on standardized workflows and documentation templates that can be customized to meet customer requirements. Pre-defined roles can be used as-is, or customized to suit your organization's nomenclature.

Documentation created by Agnitio Advisors provides the evidence required to show that your organization is committed to meeting ISO/IEC 19770-1 SAM standards as well as Microsoft and other corporate assessment programs.

Benefits of working with Agnitio Advisors to develop your documentation:

- Agnitio Advisors provides extensive knowledge of ISO/IEC and corporate SAM assessment programs.
  
- Agnitio Advisors can work with your organization to initially assess your SAM documentation to discover any deficits.
  
- Workflow and documentation work-products will be based on the standardized terms used in the ISO/IEC standards.
  
- Documentation is based on workflows that have been tested in the real-world.
  
- Standardized roles define requirements of who in your organization needs to be involved in a particular process.
  
- Documentation and workflows can be customized to meet your corporate requirements.

Contact Agnitio Advisors to discuss how we can work with you to help create your SAM program documentation.
